Safety Management for G Suite

Enhance your learning environment with safety controls for G Suite for Education.

Ensure the safety of your students when they're using G Suite for Education. Save instructional time and protect your students from self-harm, drug or alcohol use, cyberbullying, pornography, harmful situations and much more.

Full integration includes:

Gmail Analysis & Review

Google Drive Analysis & Review, including Docs, Sheets, Slides, Calendars and non-native files

Email
Extensive text analysis, inappropriate image detection and 24/7 review of all messages, attachments and links ensure student safety.

Google Drive
Trained Safety Representatives review stored and shared files in Google Drive, including Docs, Sheets, Slides, photos, calendars and non-native files.

Safety Management Dashboard
Gain insight into student behavior, activity and incidents.

Archiving
Optional Gmail and Google Drive archiving is available.

Content Analysis
Machine learning technology reveals potentially harmful language and images.

Expert Review
Trained professionals evaluate content 24/7 and alert school officials of unsafe situations.

Insight & Analytics
Administrator access to an interactive dashboard provides deep insight on student incidents.

Security
Optional email and file archiving helps you meet requirements of eDiscovery and Open Records laws.
