

LEXI™ Lockdown

LEXI™ Electric Lockdown | Applications

- Lecture Halls
- Cafeterias
- Auditoriums

What is the LEXI™ Lockdown?

Similar to the innovative QID™, the LEXI™ Lockdown offers enhanced safety and security in larger multi-door spaces. While these locks function as everyday passage locks in the day, the exit devices can be secured in case of an emergency.

Securitech® recognizes that a facility may have exit devices from different manufacturers. With the LEXI™ trim, facilities can integrate access control and easily retrofit exit devices. Mounting plates and operators change to match the exit device, but the basic electrified lever handle unit allows for a consistent and clean aesthetic.

Keyless Instant Lockdown

- No scrambling to find the key, and lock multiple doors, simply press the red button above the exit device, pressing the pendant, or by pressing the emergency lockdown button in case of an emergency

Superior Intruder Protection Available

- Full 1 inch throw stainless steel deadbolt and latch
- Deadbolt locking instead of latch

Visual Indicator

- The LED light notifies occupants that the door is secured and the outside lever is locked

Free Egress

- As required by code, single motion retracts the deadbolt and latch from the inside at all times

Keyed Entry

- Staff and first responders can always enter by key
- No one is ever locked or barricaded in

Additional Features & Options

- From locking styles, touchbars, to retrofit and new construction, LEXI™ Lockdown series is completely customizable

Consistency

- Sleek and consistent aesthetic exterior lever

How It Works:

Pressing the LOCKDOWN button from any station or turning the red turnpiece on the exit device locks all of the doors and turns the LED red.

Pressing the LOCKDOWN button again from any station resets the system to the state it was prior to the LOCKDOWN (locked or unlocked lever).

If the red turnpiece was used to generate the LOCKDOWN signal, it must be reset at the door by moving the turnpiece back to the unlocked position. This will also reset the entire LOCKDOWN system.

LEXI™ Trim for Exit Devices
